My current lease was nearly over and I've been exploring my options. I went back to the Chevy dealership where I got my Equinox and walked out because they were clearly trying to take advantage of my being a woman and offered me horrible deals. I went to Gunther on a just going out to look day and they were so helpful, courteous, and professional - not to mention offered me a very fair deal - that I went home with a new lease for a beautiful Tiguan. I'd recommend anyone go to Gunther!

We were referred to Jorge last year by another satisfied customer. He was able to go above and beyond to meet our car request---the same request that your other dealership could not meet. Jorge did it again this past weekend for another car we needed---my son loves his new wagon "Glenda". We will see Jorge again in November to trade in our beloved diesel. He is simply the best--no pressure, no gimmicks, just straight honest answers and figures.

Purchased a vehicle from this dealer? **Yes**

The purchase experience was simple and relatively quick, I went into the dealership with a fixed number for the purchase the model and trim level. I did my research prior to visiting a the dealership which made the deal much easier. The dealership had agreed to the deal I presented to the salesman by phone conversation. The only things left to do was drive the car and finalize the financing and out of pocket. Even though the dealership was a long distance from my home they give me the best price. The sales staff were courteous and professional, the only aspect of the deal that was subpar was the used car evaluation of my trade the salesman that tried to tell me that my car was worth much less than what I was offered by automation and the internet

sites. I had to say that I was going to pass on the deal and then the sales manager agreed to my request of the value of my trade. After that the rest of the sale went quickly and without additional pressure. It still took over 3 hours.

I've always wanted a hatch, 2015-16 gti has great reviews. I decided to go check it out at Gunther VW after work 1 day. As I was checking out a used 2016 gti. Allan came over, it was 1-2-3. Grabbed the keys n went for a test drive. It was fun to drive. We went into his office. Got to the price point where I'm comfortable with the purchase. Then it was matter of n hr. He had the car clean while I was with the finance guy. I got there at around 4 n I was home by 8. Awesome salesman n an awesome car.

Sami was extremely knowledgeable about all the vehicles we looked at and patient when we were changed our mind about which vehicle to purchase we appreciated his no nonsense approach.
